Kia ora koutou

This newsletter brings you up to date with the Cyber Security for the Tertiary Sector (CSTS) project.

Workshops

We are delighted to announce the first of our cyber security workshops, starting at the end of October and running through November. The workshops are online, take an hour each and are being run by our cyber security expert partners, DEFEND.

To register your place on these free workshops please email bernard.duncan@tec.govt.nz. Register early to secure your place. Here's the timetable:

Title	Delivered by	Schedule	Type
Staying Safe Online *Learn the biggest threats to the tertiary sector, how hackers get in, and what you can do to keep your organisation and yourself safe.*	DEFEND	October 24th: 10:00am - Tuesday	Presentation
MFA & Password Managers *A closer look at what makes a password easy or hard to crack and how multi-factor-authentication can help.*	DEFEND	October 31st: 12:00pm - Tuesday	Lunch and Learn
Social Engineering *Find out about the different methods that threat actors use to manipulate you to do the hard work for them.*	DEFEND	November 7th: 12:00pm - Tuesday	Lunch and Learn
